

Techxai India Trading Company

All Types of electrical and electronics goods
(Supplier, Services & Support)

**AT TECHXAI WE BELIEVE IN TWO THINGS ABOVE ALL
GROWTH AND DYNAMISM**

About us

TECHXAI is a securities trading firm committed to innovation, transparency and always working for our clients best interests. We're not afraid to say it plainly, but simply because, It's True.

TECHXAI is an open market distributor of electronic products. The company has a distribution of diverse products in the field of consumer Electronics, IT Products.

An amalgamation of reliable and responsive sourcing efficiency, distribution network talented human capital, a responsible approach to business backed with a trustworthy collaboration of partners and customers, has propelled the company to be one of the leading sourcing and distribution companies. "Sourcing the best for the future" drives the company to excellence.

At TECHXAI, we believe in two things above all: Growth and Dynamism.

Being a "leader" in your respective field is something every company wishes to achieve, but few seldom do. This is what we concentrate on strongly and that is why we achieve this status year after year.

Since our inception in 2015, TECHXAI has grown considerably to become a leading solutions provider in all areas of electrical, computer, and motors engineering. We owe our success to our enviable and diversified range of products, in-depth expert knowledge of the market, and a reputation for superior customer satisfaction.

Our product range is designed with the help of high-technology machining process following certain machining parameters; therefore our range of machines and molded components is nationally recognized for the quality, finish, design, accuracy and durability. Constituting material is tested for engineering strength and other attributes in order to assure High-test product features so our machined components are primarily used in diverse industries.

Product Profile

The assortments of various products available with us include **all the different Electronic & Electrical Goods.**

The products are squarely used in several applications including diverse industries like automotive, electrical, robotic, electronic, and many more. Some of the appreciable features of the products are listed below:

Accurate dimensions

Corrosion resistance

Close manufacturing tolerances

Simple to operate

High efficiency

Durability

Robust construction

Safe to use

Our Service

Electronic items involve different levels of automation, depending on the company and project. Companies that produce large runs of products typically use heavy automated manufacturing. Companies specialized in prototypes or small production runs typically assemble manually to save the time and cost involved in setting up automated assembly equipment.

TECHXAI Services repairs and services all types of Industrial Electronics, Servo Motors, All Types of Motors etc.

We use the latest technology to fully test your equipment to ensure you get back a fully repaired and tested unit. We replace common failure components as well as components out of tolerance. And, because we stock thousands of parts in house, we can have your repaired and tested unit back to you mostly every time in just 1 to 5 days. In addition, you can turn to us for the sale of new, surplus and refurbished equipment, we even stock thousands of absolute units!

You're Advantage:

- ★ In-House Repair Service
- ★ 1-5 Day Standard Turnaround
- ★ Free 24 Hour Rush Service
- ★ 100% Price Guarantee
- ★ Free Evaluations
- ★ Full Load Testing

Your facility will be able to eliminate downtime and reduce cost that historically have been seen in the industrial service and repair industry.

- All Electronic Services
- Reduces long turnaround times
- Communicates during the entire process
- Utilize our in-house or your space repair facility to replace the high mark up and low value of our competitors with our single source system to provide maximum speed and value to our customers.

Our repair staff has longevity and substantial experience with the products and services they provide. We are experts on the extensive test equipment that we use and with our inventory of common failure components. If an item is found unrepairable, a refurbished unit or alternative is offered to provide you with the solutions you need.

Our returning customer rate is over 98% since we started and our goal is 110% customer satisfaction.

Our Support System

TECHXAI is a complete line of high quality products to support electronic equipment. Our product line converts your power protection, power conditioning, and precision environmental needs. We provide clean reliable power, cool and conditioned air to maintain our customer system 24 hours a day, 7 days a week, and we support the full range from very small sensitive systems, to larger, more complex systems that extend to multiple buildings. We also offer efficient ways of removing the heat that is generated by electronics.

While we have grown since our operation began in 2015, our focus has remained the same, providing equipment to support and maintain conditioned space on a 24-hour basis with no down time. We have built our reputation on service, both before and after the sale. Our customers include a who's who in the manufacturing, banking, healthcare, transportation, retail, telecom and data processing industries etc.

The extensive inventory we maintain and our investment in service support staff demonstrates our dedication to keeping our customers on-line. Our in-house technical service and support staff is factory-trained in all aspects of the equipment we represent. We have thousand plus stock availability of replacement parts for Liebert Systems alone.

Our staff has grown over the years, and so has the number of manufacturers we represent, but we are still focused on you, the customer, and providing 24 hour support. Our employees average more than 5 years experience in related fields.
